

# Silver-lining Disaster Recovery

Silver-lining Disaster Recovery (DR) provides disaster recovery replication of PAYG VMs across your data centres. The service includes:

- A DR environment for CCL's vCD to vCD.
- Protection for vApps, which can contain single or multiple VMs.
- Recovery of whole vApps, with a target recovery point objective (RPO) of 15 minutes.

**Note:** Modular/granular options are not offered.
